Bill Swain builds a Tetraed

Bill made a flight with my Tetraed flying machine and decided he wanted to build one so I sent him all the info I had and he responded:

Hi Joe.

Your photos worked great. I made my own template and a jig to hold the panels in position and it went together in no time. Now I just need to fly it. Thanks again for sharing.

Bill

FCAM Family Day

A very nice turnout on a less than great day. Intermittent showers but that didn't stop the flying. A great variety of flying machines made the day! Jim arranged the lunch of wraps and pizza along with some pasta salads.

I think a great time was had by all.

Joe

**FCAM fly-in and family day**

Bob Chapman

While on the edge of rain drops most of the morning, we had a pretty nice day. Very low wind. Mostly cloudy., mellow temps. The only down side were the black flies. They are out in force. I thought it was a great day for flying and had a ball.

Lily Pond

June 13

Only a few showed up early on for the event, Bob C and I. We were joined late in the morning by KVMA members Dave Sousa and Jeff Hunter and wife. Smallest turnout in a long time. Bob and I got in a number of flights on a breezy and gusty day.

Both Dave and Jeff were able to make their first float plane flights after lunch with my Aeroscout.
